

Special Webinar Invitation

We hope 2012 is off to a great start for you! In response to health care reform questions and requests for information about health transformation efforts in our region, the Health Council is offering a complimentary webinar that will provide an overview of this very topic and how you can be involved!

REGIONAL HEALTH TRANSFORMATION: WHAT YOU NEED TO KNOW!

A special webinar for Health Council Affiliate Members

Thursday, February 9, 2012 2:00-3:30 p.m.

In Greater Cincinnati, health reform is not waiting for Washington. Broad health transformation work is well underway in our region, and this means that hospitals, physicians and post-acute providers are identifying new ways to work together to create enhanced patient care across the care continuum.

Please join us for a special webinar designed specifically for Affiliate members of the Greater Cincinnati Health Council that will provide a broad overview of the transformation work currently taking place in our region. The webinar, hosted by Health Council staff and regional hospital experts leading this work, will provide opportunity to:

- ◆ *Familiarize Affiliate members with the broad scope of regional health reform initiatives*
- ◆ *Create an understanding of how post-acute providers fit into regional health transformation work*
- ◆ *Provide information on how hospitals are approaching care transitions in the regional/ national reform environment*
- ◆ *Begin to identify potential approaches that increase communications between hospitals and post-acute providers*
- ◆ *Showcase examples of improving care transitions and enhancing post-acute follow-up*
- ◆ *Identify specific opportunities to further engage post-acute providers in regional transformation work*

Speakers:

Health Council staff leading the transformation work will provide an overview of regional health reform initiatives and how post-acute care providers can become involved. Local hospital representatives will present firsthand accounts of how they are working with post-acute providers to redesign and improve care transitions and care coordination. There will be ample opportunity to ask questions and join in this interactive dialogue.

We hope you can join us for this complimentary webinar! Please **RSVP** to [Julie Ulrich](#) by February 6, 2012. (Note: the webinar's log-in information will be sent to you once you register).

Creating connections. Improving care.
