

Greater Cincinnati Health Council Medical Emergency Visual Language Tool

English/Spanish Visual Language Translator

- An invaluable visual language tool.
- Enables instant communication where language barriers could hinder effective treatment and emergency care.
- Use with:
 - ✓ Spanish-only speakers
 - ✓ Speakers of other languages
 - ✓ Deaf and hard of hearing individuals

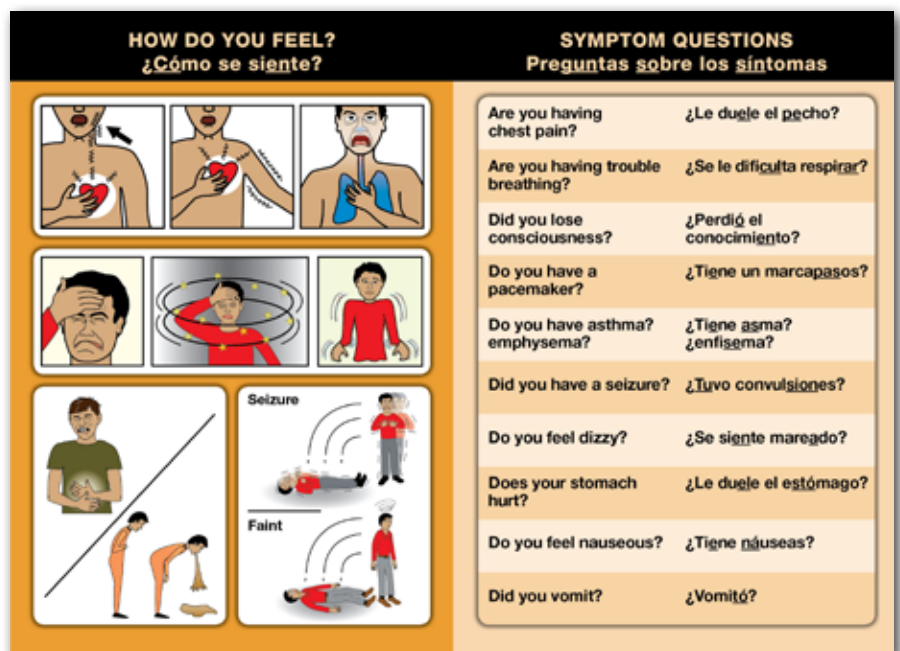

An essential tool for any doctor, nurse, patient care attendant, technician or medical provider who works with limited English proficiency (LEP) and speech-impaired patients.

28 panels pair English and Spanish questions with clear, concise pictures.

Medical personnel and patients communicate critical needs by pointing to pictures or translated phrases and questions.

Developed and reviewed by Spanish medical professionals and focus groups to ensure effectiveness.

Pocket-size, hinge-laminated folded format that is easy to handle and wipe clean.
